1. CORPORATE INFORMATION

Elysee Development Corp. (formerly Alberta Star Development Corp.) (the "Company") was incorporated under the laws of the province of Alberta on September 6, 1996. On July 15, 2015, the Company changed its name from Alberta Star Development Corp. to Elysee Development Corp.

On December 31, 2015, the Company completed a change of business from a "mining issuer" to an "investment issuer".

The head office, principal address and registered and records office is located at Suite 2300 - 1066 West Hastings Street, Vancouver, British Columbia, V6E 3X2.

The Company's financial statements as at February 29, 2016 and for the period then ended have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has net comprehensive earnings of $391,851 for the three month period ended February 29, 2016 (February 28, 2015 - $1,266,217) and has working capital of $8,433,628 as at February 29, 2016 (November 30, 2015 - $8,036,480).

The Company had cash and cash equivalents of $2,532,897 at February 29, 2016 (November 30, 2015 - $4,106,844), but management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. However, management believes that the Company has sufficient working capital to meet its projected minimum financial obligations for the next fiscal year.

2. BASIS OF PREPARATION

The condensed interim financial statements of the Company for the three month period ended February 29, 2016 were approved and authorized for issue by the Board of Directors on April 28, 2016.

Basis of presentation

The Company's condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value, as explained in Note 14, and are presented in Canadian dollars except where otherwise indicated.

Statement of compliance

The condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standards ("IAS") 34, "*Interim Financial Reporting*" using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's annual financial statements for the year ended November 30, 2015.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting judgments, estimates and assumptions

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of earnings and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and share-based payments, and the recoverability and measurement of deferred tax assets and liabilities. Actual results may differ from those estimates and judgments.

Cash and cash equivalents

Cash and cash equivalents include highly liquid investments with original maturities of three months or less.

Equipment

Items of equipment are depreciated over their estimated useful lives using the declining balance method at the following annual rates with half the rate applied in the year of acquisition:

Computer equipment	30%
Furniture and fixtures	20%

Comparative figures

Certain comparative figures have been adjusted to conform to the current year's presentation.

4. CASH AND CASH EQUIVALENTS

The Company's cash and cash equivalents are denominated in the following currencies:

	February 29, 2016	November 30, 2015
Denominated in Canadian dollars	**$ 2,009,883**	$ 3,148,584
Denominated in U.S. dollars	**523,014**	958,260
Total cash and cash equivalents	**$ 2,532,897**	$ 4,106,844

At February 29, 2016 and November 30, 2015, all the Company's cash and cash equivalents were classified as cash.

5. RECEIVABLES

Valuation of common shares held as part of marketable securities has been determined in whole by reference to the bid price of the shares on the TSX, TSX Venture Exchange and OTCQB (the "Exchanges") at each period end date. Warrants received as attachments to various share purchase units do not trade in an active market. At the time of purchase the per unit cost was allocated in full to each common share. The value of warrants are subsequently determined at the measurement date using the Black-Scholes Option Pricing Model.

The Company's significant marketable securities are as follows:

On February 24, 2014, the Company entered into an agreement with TerraX Minerals Inc. ("TerraX"), a company with a director and officer in common, pursuant to which the Company could have earned up to a 60% interest in TerraX's wholly-owned Central Canada gold project in Ontario and subscribed for 1,300,000 units of TerraX (the "Units") at $0.45 per Unit for gross proceeds of $585,000. Each Unit consists of one common share and one-half of one share purchase warrant, with each full warrant entitling the holder to purchase an additional common share at an exercise price of $0.57 per common share exercisable until February 28, 2016. On December 8, 2015, these warrants were extended until February 28, 2017.

On October 24, 2014, the Company entered into an agreement with NioCorp Developments Ltd. ("NioCorp"), pursuant to which the Company could have earned up to a 60% interest in NioCorp's wholly-owned Archie Lake project in Saskatchewan and subscribed for 2,800,000 special warrants of NioCorp (the "Special Warrants") at $0.55 per Special Warrant for gross proceeds of $1,540,000. Each Special Warrant was exchanged on January19, 2015 for no additional consideration into one unit of NioCorp ("Unit"). Each Unit consists of one common share and one share purchase warrant, with each warrant entitling the holder to purchase an additional common share at an exercise price of $0.65 per common share exercisable until November 10, 2016.

On October 26, 2015, the Company subscribed for 6,000,000 units of a private placement at $0.125 per unit of Focus Ventures Ltd. ("Focus") for gross proceeds of $750,000. Each unit consists of one common share and one warrant, with each warrant entitling the holder to purchase one additional common share of Focus for five years from closing at $0.15 per share in the first, second and third years, and at $0.20 per share in the fourth and fifth years.

On April 6, 2016, the Company subscribed for 2,000,000 units of Focus in a private placement at $0.065 per unit for $130,000. Each unit consists of one common share and one warrant, with each warrant entitling the holder to purchase one additional common share of Focus for one year from closing at $0.065 per share.

Share issuances and repurchases

During the period ended February 29, 2016 and the year ended November 30, 2015, the Company did not issue any common shares.

In addition, 156,000 (February 28, 2015– 92,500) shares were repurchased at a total cost of $28,432 (February 28, 2015 - $16,188) and were returned to capital pursuant to the Normal Course Issuer Bid.

Normal Course Issuer Bid

On May 4, 2015, the Company received approval from the TSX Venture Exchange (the "Exchange") to renew its Normal Course Issuer Bid (the "Bid"). The original Bid started on May 3, 2013. Pursuant to the Bid, the Company may purchase for cancellation, from time to time, as it considers advisable, up to 1,050,000 of its issued and outstanding common shares. The price which the Company will pay for any shares purchased will be the prevailing market price of such common shares on the Exchange at the time of such purchase. The Bid commenced on May 7, 2015 and will terminate on May 6, 2016, or such earlier time as the Bid is completed or at the option of the Company. Mackie Research Capital Corporation of Vancouver, British Columbia will conduct the Bid on behalf of the Company. During the period ended February 29, 2016, the Company purchased 156,000 shares (February 28, 2015 – 92,500) at a total cost of $28,432 (February 28, 2015 - $16,188). 11. SHARE-BASED PAYMENTS

Share-based payments for the following options granted by the Company will be amortized over the vesting period, of which $33,258 was recognized in the period ended February 29, 2016 (November 30, 2015 - $Nil) (Note 15):

Grant date	**Fair value**	**Amount vested to February 29, 2016**	Amount vested to November 30, 2015
January 29, 2016	**$ 33,258**	**$ 33,258**	-
Total	**$ 33,258**	**$ 33,258**	$ -

12. EARNINGS PER SHARE

The calculation of basic and diluted earnings per share is based on the following data:

Three month period ended February 29	**2016**	2015
Net earnings for the period	**$ 391,851**	$ 1,266,517
Weighted average number of shares – basic and diluted	**20,676,297**	21,421,507

(Expressed in Canadian dollars)

The basic earnings per share is computed by dividing the net earnings by the weighted average number of common shares outstanding during the period. The diluted earnings per share reflects the potential dilution of common share equivalents, such as outstanding stock options and share purchase warrants, in the weighted average number of common shares outstanding during the period, if dilutive.

13. CAPITAL RISK MANAGEMENT

The capital structure of the Company consists of equity attributable to common shareholders, comprising of issued capital, contributed surplus and deficit. The Company's objectives when managing capital are to: (i) preserve capital, (ii) obtain the best available net return, and (iii) maintain liquidity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic condition and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents and investments.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the period ended February 29, 2016. The Company is not subject to externally imposed capital requirements.

Fair value

The fair value of financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the financial statements approximates their fair value due to the demand nature or short term maturity of these instruments.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly.
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data. As at February 29, 2016, the Company does not have any Level 3 financial instruments.

Management of financial risks

The financial risks arising from the Company's operations include credit risk, liquidity risk, interest rate risk, currency risk and commodity price risk. These risks arise from the normal course of operations and all transactions undertaken are to support the Company's ability to continue as a going concern. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's cash and cash equivalents and receivables. The Company manages its credit risk relating to cash and cash equivalents by dealing only with highly-rated Canadian financial institutions. As at February 29, 2016, receivables were comprised of GST receivable of $2,142 (November 30, 2015 - $4,785), other receivables of $Nil (November 30, 2015 - $794) and interest receivable of $32,606 (November 30, 2015 - $22,889). As a result, credit risk is considered insignificant.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuously monitoring actual and projected cash flows and matching the maturity profile of financial assets and liabilities. The Company has cash and cash equivalents of $2,532,897 to settle current liabilities of $17,542, therefore liquidity risk is considered insignificant.

Interest rate risk

The Company's interest rate risk is primarily related to the Company's cash and cash equivalents for which amounts were invested at interest rates in effect at the time of investment. Changes in market interest rates affect the fair market value of the cash and cash equivalents. However, as these investments come to maturity within a short period of time, the impact would likely not be significant. The Company also has investments in convertible debentures which have a fixed interest rate and are not subject to interest rate fluctuations.

A 1% change in short-term rates would have changed the interest income and net earnings of the Company, assuming that all other variables remained constant, by approximately $5,025 for the period ended February 29, 2016.

Currency risk

The majority of the Company's cash flows and financial assets and liabilities are denominated in Canadian dollars, which is the Company's functional and reporting currency. Foreign currency risk is limited to the portion of the Company's business transactions denominated in currencies other than the Canadian dollar.

The Company's objective in managing its foreign currency risk is to minimize its net exposures to foreign currency cash flows by holding most of its cash and cash equivalents in Canadian dollars (Note 4). The Company monitors and forecasts the values of net foreign currency cash flow and financial position exposures and from time to time could authorize the use of derivative financial instruments such as forward foreign exchange contracts to economically hedge a portion of foreign currency fluctuations. The Company has not, to the date of these financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.
