Management's Discussion and Analysis

For the Nine-month period Ended September 30, 2023

This management's discussion and analysis ("MD&A") of Elysee Development Corp. ("Elysee" or "the Company"), dated November 1, 2023 should be read in conjunction with the accompanying condensed consolidated interim financial statements and notes for the nine-month period ended September 30, 2023. The Company's financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS"). Except as noted, all financial amounts are expressed in Canadian dollars. Additional information relating to the Company is available on SEDAR and may be accessed at www.sedarplus.ca.

CAUTION REGARDING FORWARD-LOOKING INFORMATION

This document contains certain statements that may be deemed "forward-looking statements". All statements in this document, other than statements of historical fact, that address events or developments that the Company expects to occur, are forward looking statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans" "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. In particular, the forward-looking statements in this MD&A include: (i) under the heading "*Outlook*" statements relating to the Company's capital expenditure plans for 2023; and (ii) under the heading "*Liquidity and Capital Resources*" the statement that the Company believes it has sufficient funds to fund its currently planned administrative budget through the balance of fiscal 2023. Forward-looking statements involve numerous risks and uncertainties. Estimates and forward-looking statements are based on assumptions of future events and actual results may vary from these estimates.

Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include market prices, and continued availability of capital and financing, and general economic, market or business conditions and other factors discussed under the heading "*Risks and Uncertainties*". Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements.

The forward-looking statements contained in this MD&A are made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking statements or in any other documents filed with Canadian securities regulatory authorities whether as a result of new information, future events or otherwise, except in accordance with applicable securities laws. The forward-looking statements are expressly qualified by this cautionary statement.

NAV is a non-GAAP (generally accepted accounting principles) measure calculated as the value of total assets less the value of total liabilities divided by the total number of common shares outstanding as at a specific date. For the purpose of this calculation, share purchase warrants held by the Company were valued using the Black-Scholes model calculation, as reported in our annual and quarterly financial statements. The term NAV does not have any standardized meaning according to GAAP and therefore may not be comparable to similar measures presented by other companies. There is no comparable GAAP measure presented in the Company's financial statements and thus no applicable quantitative reconciliation for such non-GAAP financial measure. The Company believes that NAV can provide information useful to its shareholders in understanding its performance and may assist in the evaluation of its business relative to that of its peers.

OVERVIEW AND OVERALL PERFORMANCE

Elysee completed a Change of Business (“COB”) from a “mining issuer” to an “investment issuer” on December 31, 2015.

The Company believes that the experience and contacts of its board of directors and management will enable it to identify and capitalize upon investment opportunities as an "investment issuer". The Company's goal is to seek returns through investments in the securities of other companies. The Company's primary investments have been in junior mining and exploration companies active in the gold and silver sector and other metals. Occasionally the Company invests in other sectors as well.

On March 31, 2023, the Company announced the retirement of Stuart Rogers as President and Director of the Company and the appointment of Thibaut Lepouttre as a Director. Guido Cloetens, the current Chairman of the Company, became President and CEO with current Director, Martin Burian serving as Chairman of the Board.

Mr. Thibaut Lepouttre has been involved in researching and analyzing mining companies since 2008 when he founded Caesars Report, the first English language website in Continental Europe focused on mining.

On September 30, 2023 the Company had assets of \$13,307,830 and shareholder's equity was \$13,303,848.

The net asset value of the Company was \$0.465 per share on September 30, 2023. The NAV is based on the fair market value for the investment warrants as compared to \$0.460 per share using the intrinsic value for the investment warrants.

During the three-month period ended September 30, 2023 the Company had a net and comprehensive loss of \$1,400,850 compared to a loss of \$1,170,364 during the same period a year before. This was mainly due to an unrealized loss of \$1,264,012 on marketable securities. In addition, the Company decided to fully write down the equity investment of \$166,830 in CareCru Incorporated, a privately held company, after it filed a notice of intention to make a proposal under the B.C. Bankruptcy and Solvency Act on September 28, 2023. In October 2023 a trustee was appointed by the Court. In Q3 the Company realized a gain of \$42,939 on marketable securities and earned interest and dividend income of \$81,165.

General and administrative expenses declined from \$176,623 in the third quarter of 2022 to \$94,489 in Q3 2023 mainly as a result of lower share-based payments and reduced management fees in 2023.

During the first nine months ending on September 30, 2023 the Company invested approximately \$2.6 million in publicly listed companies in the U.S. and Canada.

During the nine-month period ended September 30, 2023 the Company had a net and comprehensive loss of \$1,903,072 as compared to a net and comprehensive loss of \$3,866,308 during the nine-month period ended September 30, 2022 due to a \$1,530,179 investment loss derived from its portfolio versus a loss on investments of \$3,365,729 during the nine-month period ended September 30, 2022.

The investment loss during the nine-month period ended September 30, 2023 was primarily derived from an unrealized loss on marketable securities of \$1,822,547 as compared to an unrealized loss during the same period in 2022 of \$4,328,704. In addition, there was a write-down of other investments of \$166,830.

The loss on investments in 2023 was partially offset by interest and dividend income of \$452,017 and a realized gain on the sale of marketable securities of \$20,598. During the nine-month period ended September 30, 2022 the unrealized loss on marketable securities was offset by a realized gain on the sale of marketable securities of \$713,269 and interest and dividend income of \$262,137.

The value of the warrants in the Company's portfolio decreased to \$170,207 as at September 30, 2023 from \$186,468 as at December 31, 2022. The fair market value is determined based on the Black-Scholes Pricing Model. The intrinsic value of the Company's investment warrants was \$37,500 on September 30, 2023 (\$21,500 on December 31,

2022). The intrinsic value is equal to the difference between the market value of the underlying share less the exercise price of the warrant.

On March 14, 2023, the Company declared a dividend of \$0.01 per common share. This dividend was paid on April 11, 2023 to shareholders of record on March 31, 2023 and was an eligible dividend for Canadian income tax purposes.

At December 31, 2022, the Company had unused tax losses and tax pools of approximately \$6,920,000 available that may be used to offset taxes that would otherwise be payable on the Company's future comprehensive earnings. For more information, please refer to Note 9 of the audited annual consolidated financial statements for the year ended December 31, 2022 on the Company's web site and available at www.sedarplus.ca.

On May 3, 2023, the Company received approval from the TSX Venture Exchange (the "Exchange") to renew its Normal Course Issuer Bid (the "NCIB"). The original NCIB started on May 3, 2013. Pursuant to the NCIB, the Company may purchase for cancellation, from time to time, as it considers advisable, up to 1,422,530 of its issued and outstanding common shares. The price which the Company will pay for any shares purchased will be the prevailing market price of such common shares on the Exchange at the time of such purchase. The renewed NCIB will commence on May 11, 2023 and will terminate on May 10, 2024, or such earlier time as the NCIB is completed or at the option of the Company. Research Capital Corporation of Vancouver, B.C. will conduct the NCIB on behalf of the Company. The Company purchased 157,000 of its common shares at a total cost of \$68,746 pursuant to the normal course issuer bid from January 1, 2023 to September 30, 2023.

The Board of Directors of the Company believes that from time-to-time market prices for the Company's common shares do not always reflect the underlying value and that, accordingly, the purchase of common shares under the NCIB will increase the Net Asset Value per share and be advantageous to all remaining shareholders. The NCIB purchases will also afford an increased degree of liquidity to current shareholders who would like to sell their shares and will serve to stabilize the market price for the Company's shares.

OUTLOOK

At September 30, 2023 the Company's statement of financial position includes working capital of \$9,692,547 inclusive of \$1,026,294 of cash and cash equivalents, a \$40,000 loan receivable from a private company and \$7,969,329 in marketable securities. The Company has no debt.

Management believes the Company's financial position remains strong and is sufficient to cover planned administration costs for at least a twelve-month period.

RESULTS OF OPERATIONS – NINE-MONTH PERIOD ENDED SEPTEMBER 30, 2023

The Company's net and comprehensive loss for the nine-month period ended September 30, 2023 was \$1,903,072 (\$0.07 basic loss per share) compared to a net and comprehensive loss of \$3,866,308 (\$0.14 basic loss per share) for the nine-month period ended September 30, 2022.

The significant changes in the net and comprehensive loss during the current fiscal nine-month period compared to the prior year are as follows:

There was a realized gain on the sale of marketable securities of \$20,598 for the nine-month period ended September 30, 2023 compared to a realized gain of \$713,269 in the prior year. Transactions costs of \$13,030 were recognized for the nine-month period ended September 30, 2023 compared to \$19,827 in the prior year.

There was an unrealized loss on marketable securities of \$1,822,547 for the nine-month period ended September 30, 2023 compared to an unrealized loss of \$4,328,704 in the prior year.

There was a write-down of other investments of \$166,830 for the nine-month period ended September 30, 2023. This write-down was due to the fact that on September 28, 2023, CareCru Incorporated filed a "Notice of Intention to Make a Proposal" pursuant to the Bankruptcy and Insolvency Act. The proposal has not been received but the Company does not anticipate the recovery of its equity investments.

There was an increase of \$189,880 of interest and dividend income to \$452,017 for the nine-month period ended September 30, 2023 from \$262,137 during the prior year primarily due to a special dividend receivable from Spartan Delta Corp. of \$195,170. The Spartan Delta special dividend was comprised of a return of capital of \$90,480 and dividend of \$195,170 offset by \$10,150 for the value for the spin-out company of Logan Energy Corp.

Consulting fees increased \$6,300 to \$37,800 for the nine-month period ended September 30, 2023 as compared to \$31,500 during the prior year.

Management fees decreased \$25,600 to \$106,100 for the nine-month period ended September 30, 2023 as compared to \$131,700 during the prior year due to the retirement of an Officer.

There was a share-based payment expense of \$70,891, a non-cash item, on stock options granted in the current and prior year but vested during the nine-month period ended September 30, 2023 as compared to \$189,096 during the same period a year prior.

All other general and administrative costs incurred during the current nine-month period were comparable to those incurred in the nine-month period in the prior year.

RESULTS OF OPERATIONS – THREE-MONTH PERIOD ENDED SEPTEMBER 30, 2023

The Company's net and comprehensive loss for the three-month period ended September 30, 2023 was \$1,400,850 (\$0.05 basic loss per share) compared to a net and comprehensive loss of \$1,170,364 (\$0.04 basic loss per share) for the three-month period ended September 30, 2022.

The significant changes in the net and comprehensive loss during the current fiscal three-month period compared to the prior year are as follows:

There was a realized gain on the sale of marketable securities of \$42,939 for the three-month period ended September 30, 2023 compared to a realized loss of \$40,072 in the prior year. Transactions costs of \$1,825 were recognized for the three-month period ended September 30, 2023 compared to \$4,707 in the prior year.

There was an unrealized loss on marketable securities of \$1,264,012 for the three-month period ended September 30, 2023 compared to an unrealized loss of \$1,035,974 in the prior year.

There was a write-down of other investments of \$166,830 for the three-month period ended September 30, 2023. This write-down was due to the fact that on September 28, 2023, CareCru Incorporated filed a “Notice of Intention to Make a Proposal” pursuant to the Bankruptcy and Insolvency Act. The proposal has not been received but the Company does not anticipate the recovery of its equity investments.

Interest and dividend income of \$81,165 for the three-month period ended September 30, 2023 was relatively the same as compared to \$81,210 during the prior year.

Management fees decreased \$11,100 to \$31,500 for the three-month period ended September 30, 2023 as compared to \$42,600 during the prior year due to the retirement of an Officer.

There was a share-based payment expense of \$5,447, a non-cash item, on stock options granted in the current and prior year but vested during the three-month period ended September 30, 2023 as compared to \$78,926 during the same period a year prior.

All other general and administrative costs incurred during the current three-month period were comparable to those incurred in the three-month period in the prior year.

Noteworthy transactions during the quarter were:

- the Company received proceeds of \$625,000 on the redemption of a debenture issued by IBC Advanced Alloys Corp.
- the Company received proceeds of \$60,000 on the partial repayment of a loan to CareCru Incorporated, a privately held company.
- the Company acquired additional shares and warrants of Oroco Resource Corp. by participating in a private placement of 150,000 units at \$0.65 for \$97,500,
- the Company acquired 355,000 shares of Heliostar Metals Ltd. and
- the Company increased its exposure to the uranium sector by investing in units of Sprott Physical Uranium Trust and in Mega Uranium Ltd.

SUMMARY OF QUARTERLY RESULTS

LIQUIDITY AND CAPITAL RESOURCES

The Company relies on its working capital and equity financings to fund its investing and administrative costs.

As at September 30, 2023, the Company had working capital of \$9,692,547 mainly comprised of cash and cash equivalents of \$1,026,294, loan receivable of \$40,000 from a private company and marketable securities of \$7,969,329. This compares to working capital of \$11,627,948 at December 31, 2022, which included cash and cash equivalents of \$789,767, loan receivable of \$100,000 from a private company and marketable securities of \$10,245,934.

The increase in cash and cash equivalents of \$236,527 during the nine-month period ended September 30, 2023 was mainly due to the redemption of a \$625,000 private company bond offset by the dividend paid of \$284,506.

Total assets as at September 30, 2023 decreased to \$13,474,660 from \$15,537,085 as at December 31, 2022.

As at the date of this MD&A, the Company has approximately \$930,000 in cash and cash equivalents.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements.

TRANSACTIONS WITH RELATED PARTIES

These transactions were in the normal course of operations and were measured at the exchange value which represented the amount of consideration established and agreed to by the related parties.

CRITICAL ACCOUNTING ESTIMATES

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the fair value measurements for financial instruments, and share-based payments, and the recoverability and measurement of deferred tax assets and liabilities. Actual results may differ from those estimates and judgments.

CHANGE IN ACCOUNTING POLICY

There were no new or amended accounting standards or interpretations that had a significant impact on the Company's consolidated financial statements during the periods ended September 30, 2023 and December 31, 2022.

Fair value

The fair value of financial assets and financial liabilities at amortized cost is determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions. The Company considers that the carrying amount of all its financial assets and financial liabilities recognized at amortized cost in the financial statements approximates their fair value due to the demand nature or short term maturity of these instruments.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 - fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities.
- Level 2 - fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly. The \$170,207 Black-Scholes valuation of warrants held as investments is substantially higher than the intrinsic value based on the warrant exercise price compared to the market price.
- Level 3 - fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data.

Management of financial risks

The financial risks arising from the Company's operations include credit risk, liquidity risk, interest rate risk, currency risk and market risk. These risks arise from the normal course of operations and all transactions undertaken are to support the Company's ability to continue as a going concern. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises primarily from the Company's cash and receivables. The Company manages its credit risk relating to cash by dealing only with highly-rated Canadian financial institutions. As at September 30, 2023, there is interest receivable of \$87,344 (December 31, 2022 - \$62,385). As a result, credit risk is considered insignificant.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by continuously monitoring actual and projected cash flows and matching the maturity profile of financial assets and liabilities. The Company has cash and cash equivalents of \$1,026,294 (December 31, 2022 - \$789,767) to settle current liabilities of \$3,982 (December 31, 2021 - \$140,804), therefore liquidity risk is considered insignificant.

Interest rate risk

The Company's interest rate risk is primarily related to the Company's cash for which amounts were invested at interest rates in effect at the time of investment. Changes in market interest rates affect the fair market value of the cash. However, as these investments come to maturity within a short period of time, the impact would likely not be significant. The Company also has investments in convertible debentures which have a fixed interest rate and are not subject to interest rate fluctuations.

Currency risk

The majority of the Company's cash flows and financial assets and liabilities are denominated in Canadian dollars, which is the Company's functional and reporting currency. Foreign currency risk is limited to the portion of the Company's business transactions denominated in currencies other than the Canadian dollar.

The Company's objective in managing its foreign currency risk is to minimize its net exposures to foreign currency cash flows by holding most of its cash in Canadian dollars. The Company monitors and forecasts the values of net foreign currency cash flow and financial position exposures and from time to time could authorize the use of derivative financial instruments such as forward foreign exchange contracts to economically hedge a portion of foreign currency fluctuations. The Company has not, to the date of these financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

Market risk

Market risk is the risk that the fair value of or future cash flows from the Company's financial instruments will significantly fluctuate because of changes in market prices. The Company is exposed to market risk in trading its marketable securities and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

The Company manages market risk by having a portfolio that is not singularly exposed to any one issuer or class of issuers. The Company's investment activities are currently concentrated primarily in junior exploration and mining companies active in the gold and silver sector as well as several technology companies.

RISKS AND UNCERTAINTIES

The Company believes that the following items represent significant areas for consideration.

Cash Flows and Additional Funding Requirements

The Company has a limited history of operating earnings and no assurances that sufficient funding, including adequate financing, will be available. The sources of funds currently available to the Company include; sale of marketable securities, raising equity or debt capital.

Composition of Portfolio

The composition of the Company's securities portfolio taken as a whole may vary widely from time to time, particularly equity securities in which the Company invests in the natural resource sector which often have very high volatilities. The Company may make investments in securities that have low trading volumes. Accordingly, it may be difficult for the Company to make trades in these securities without adversely affecting the price of such securities.

Stock Price and Performance

The Company's stock price may vary according to the value of the securities in which it invests, which will depend, in part, upon the performance of the issuers of such securities. The value of the securities acquired by the Company will be affected by business factors and risks that are beyond the control of the Company. In addition, the performance of certain of the securities may be affected by business factors and risks other than their exposure to metal and mineral prices, which may be more determinative of such securities performance. Some of the factor and risks are: (i) some of the issuers in which the Company invests may have limited operating histories, (ii) operational risks related to specific business activities of the respective issuers; (iii) quality of underlying assets; (iv) financial performance of the respective issuers and their competitors; (v) volatility in the price of metal and mineral prices; (vi) environmental risks; (vii) political risks; (viii) fluctuation in exchange rates; (ix) fluctuation in interest rates; and (x) government regulation, including regulation to prices, taxes, royalties, land tenure, land use, importing and exporting of materials and environmental protection.

There is no assurance that the investment objectives of the Company will actually be achieved. The value of the shares of the Company may increase or decrease with the value of its investment portfolio and general economic conditions beyond the control of the Company's management, including the level of interest rates, corporate earnings, economic activity, the value of the Canadian dollar and other factors.

Key Management

The success of the Company will be largely dependent upon the performance of its key officers and consultants. The success of the Company is largely dependent on the discretion and ability of the Company in determining the composition of the portfolio of assets, and in negotiating the pricing and other terms of the agreements leading to the acquisition of assets. Failure to retain key individuals or to attract or retain additional key individuals with necessary skills could have a materially adverse impact upon the Company's success.

Conflict of Interest

Some of the Company's directors and officers are directors and officers of other reporting companies. These associations may give rise from time to time to conflicts of interest. As a result of, the Company may have a conflict of interest in negotiating and concluding terms respecting the extent of such participation. The ability to liquidate investments held by the Company in corporations with common director may be impaired by trading black-out periods imposed on insiders of such entities.
